

VOGOV DISCLAIMER

LAST UPDATED: August 8, 2018

This Disclaimer is prepared by IKAM Media inc – odštěpný závod, a company incorporated in the Czech Republic, address: Podbabska 17, 166 24, Praha 6 (hereinafter the "**Company**" or "**we**"). The Company undertakes a crowdsale (hereinafter the "**Crowdsale**") of the OGO coins (hereinafter the "**OGO coin**"). No perfect infrastructure or system exists, therefore, any reasonable person should take and consider all possible risks which may happen when dealing with cryptoprojects and cryptoassets. Thus, we prepared this Disclaimer to show possible risks and developments which may become real in some unplanned circumstances. We will do our best to avoid or minimize such risks and developments but you should read, understand and grasp the risks and developments.

You shall be aware of risks arising from acquiring OGO coin in the context of the cryptographic nature of tokens, cryptocurrency, the uncertainty of its legal regulation, and blockchain-based software and services.

You may acquire OGO coin only if you possess professional knowledge and you have assessed all potential risks. Any acquisition of OGO coin in terms of the Crowdsale should only be undertaken by individuals and representatives of legal entities who have significant knowledge, experience, and the understanding of cryptocurrencies, cryptographic tokens and blockchain-based software and services.

The Company may issue guidelines for usage and other aspects of OGO coin at any time of the Crowdsale. You are responsible for the understanding of how cryptocurrencies, cryptographic tokens, and blockchain-based software and services work. You shall understand potential risks arising from the Crowdsale.

The Company will provide a support to the acquirers at any time of the Crowdsale. Nevertheless, the Company shall not be responsible for any liability, accident, harm, loss, delay, inconvenience or damage, including but not limited to, personal injury, property damages, or death, and cost or expense, all reasonable, caused to the acquirer due to the actions or inactivity of the Company, its managers, directors, employee or other personnel, controlled companies or third party partners unless the applicable law requires otherwise. In case if the applicable law prohibits such disclaimers partly or fully, this Disclaimer should apply to the extent allowed by the applicable law.

Disclaimer of general and associated risks. The acquisition of OGO coin may have risks. Before acquiring OGO coin the Company highly recommends you to carefully assess all potential risks and be advised by an independent professional and cryptospecialist on the Crowdsale.

If you do not understand any aspect of the Crowdsale, cryptocurrencies, cryptographic tokens, and blockchain-based software and services, you shall not acquire OGO coin and do not participate in the Crowdsale.

By acquiring OGO coin and participating in the Crowdsale you agree to not hold the Company or its affiliates, representations, agencies, managers, directors, employees, entities, owners, founders liable for any loss or damages, whether incidental or consequential, arising from, or connected to the Company, the Crowdsale, or OGO coin. By acquiring OGO coin or participating in the Crowdsale, you expressly acknowledge that you have fully understood all the potential risks, uncertainty, costs, benefits of the Crowdsale and OGO coin.

Notice.

- The Crowdsale and its component shall not be treated as an offer for investment and does not constitute a proposal of securities in any country or state.

- The Crowdsale is not available for citizens or residents of the United States of America or any jurisdiction, which prohibits participation in token sales. Upon being informed of the fact that a person is a citizen or resident of the United States of America or any jurisdiction, which prohibits participation in the Crowdsale, the Company will treat such an acquisition as void and no OGO coin shall be acquired by the citizen or resident of the United States of America or the jurisdiction, which prohibits participation in token sales after the expiration of the buyback mechanism. We provide the buyback mechanism only to the citizen or resident of the United States of America or any jurisdiction, which prohibits participation in the Crowdsale, only in case if such a resident or citizen has informed us about their residence or citizenship. We may require to ask you to present us documents which identify you in accordance with the KYC/AML procedures. The procedures are necessary for the purposes of preventing fraud and we count on them as our legitimate interest. The buyback mechanism expires on the fourteenth calendar day after the end of the round of the Crowdsale in which the citizen or resident of the United States of America or any jurisdiction, which prohibits participation in the Crowdsale has participated.

- Neither OGO coin nor Company's assets shall be considered fiat money.

- The cryptocurrency and Crowdsale have regulatory burden and control. The Company may be a subject of regulatory inquiries and actions of governments, which may lead to difficulties of the Crowdsale.

- All acquisitions of OGO coin shall be final and non-refundable unless the Company states or provides otherwise. By acquiring OGO coin you agree that the Company shall not give refunds for any reason and you shall not receive any refund for any OGO coin even if OGO coin is unusable, lost, or unavailable.

- You as an acquirer shall take appropriate technical and security steps to protect and maintain your blockchain wallet's security or similar means for possessing OGO coin. The same level of protection and maintenance shall be provided by you to your private details and account details, without which you cannot access your accounts/wallets or similar means for possessing OGO coin.

By acquiring OGO coin you agree that the Company shall not be required to give you a refund, account reset or other access to OGO coin and the Company shall not be liable to you for any damage or loss in the context of your inability to access OGO coin.

The Company disclaims any responsibility for any consequential or direct damage or loss of any kind arising from: (a) reliance on information published in this document, Company's website, mobile application or desktop application, (b) any error, omission or inaccuracy of such information or (c) any action or omission arising therefrom. OGO coin is a crypto token used by the Company and OGO coin is not a cryptocurrency.

You shall bear in mind that OGO coin is not an investment. We do not guarantee or predict that the OGO coin will increase or decrease in value. You acknowledge that OGO coin may increase or decrease in value from time to time. OGO coin shall not constitute proof of possession, ownership, right to control or right to vote. The OGO coin does not give you possession, ownership, or share in the Company. Respectfully, OGO coin shall not grant rights to take part in the control the board of the Company or influence on decision making in the Company.

There is a list of risks which may occur. Please read and understand it. This list is not exhaustive and may be added by the Company at any time. You should follow best practices and third party guidelines to ascertain new or emerging risks regarding the technology used by the Company. You also shall take into account Company's public announcements with regard to the Crowdsale.

1) Risks of Legal Uncertainty

Blockchain and cryptocurrency have been subject to the regulatory burden by different countries. Some decisions of different countries may cause the malfunctioning of the Company or OGO coin, including but not limited to, prohibitions and limits on the ownership or use of crypto tokens like OGO coin. Please contact your national regulatory authorities to clarify such risks.

2) Risks Related to the Ethereum Protocol

OGO coin is established on so-called the Ethereum protocol. There are risks that may lead to malfunction of the Ethereum protocol may cause OGO coin to malfunction. More details with regard to the Ethereum protocol may be reached at <http://www.ethereum.org>.

3) Risk of Losing Access to OGO coin Due to Loss of Credentials

Your OGO coin may be associated with your account until OGO coin is distributed to you. Your account can only be accessed with login credentials opted by you. The loss of such credentials may result in the loss of OGO coin. It is recommended to store these credentials in safe place, preferably, with an opportunity to back-up such credentials.

4) Risks Related to Your Credentials

Any third party that gains access to your login credentials or private keys may dispose of your OGO coin. To avoid such risks, you shall take appropriate security and technical steps to safely store your login credentials or private keys.

5) Risk that the Company Will Change Its Plans and Strategy

The Company undertakes the Crowdsale which depends on many factors and third-party decisions. Your expectancy with regard to the OGO coin or the Company may differ from the reality for a number of reasons including, but not limited to, Company's views with regard to the performance of the strategy or plans.

6) Risk of Insufficient Interest in the Company or its projects

There is a probability that the Company will not be interested by a number of individuals and legal entities. Such a lack of interest could cause the Company, value of OGO coin or other projects of the Company.

7) Risk of Alternative and Unofficial business like the Company's

We cannot guarantee that there will be no alternative network which uses the same source code and protocol underlying the Company. The official Company's network may compete with alternative and unofficial OGO coin based networks, which might influence the OGO coin and Company's activity.

8) Risk of Malfunction in the Company

There is a risk of Company's malfunction causing the loss or decrease of OGO coin.

9) Risk of an Illiquid Market for OGO coin

At the time of publication of this Disclaimer OGO coin may not be traded on exchanges. Upon being present on an exchange OGO coin may cause fraud, experience security failures, or other similar issues. These events may cause a reduction in the value or liquidity of OGO coin.

10) Risk of Dissolution of the OGO coin

There is a risk of unfavourable decreases of the value of OGO coin. This may result in the impossibility to undertake Company's business and may dissolve OGO coin or to fail to launch OGO coin.

11) Risk of Cryptography

Development of cryptography or other technical means may cause risks to cryptocurrencies, the Company's services and OGO coin.

12) Risk of Security

No company in the world can guarantee 100% security of their platforms and services. There may be lacks or mistakes intentionally or unintentionally left which may cause insecurity of the OGO coin.

13) Risk of Theft and Hacking

Thieves, hackers, other groups, or criminal organizations may interfere with the Company or OGO coin in various ways, including, but not limited to, DOS or DDoS attacks, man-in-the-middle attack, smurfing, spoofing, malware attacks, or other attacks which may cause the interference to the Company's activity, Crowdsale, or OGO coin.

14) Risk of Compliance of the Company

Although OGO coin is not an investment, share or any type of securities, OGO coin may obtain a legal status such as asset or the like. That status may be restricted if the Company lacks compliance causing the decrease of the OGO coin.

15) Risk of Uninsured Losses

Funds held using the Company's platforms or network are uninsured. In case of any loss or decrease of value, the Company shall not provide refund and the Company does not involve third party providing insurance services.

16) Other Unexpected Risks

Cryptocurrency and tokens are a fresh and new technology. Countries and states may impose regulatory and legal burdens, technological discovery cryptocurrency and tokens may occur, other changes in the cryptocurrency and tokens may happen. We naturally cannot predict them. That is why the Company cannot foresee them.
